The Access to Insurance Initiative (A2ii) is a unique global partnership working to inspire and support insurance supervisors to promote inclusive and responsible insurance. As the implementation arm of the International Association of Insurance Supervisors (IAIS), we identify supervisory needs, develop tailored capacity building programmes, translate knowledge gained from the regions into global learning tools, contribute to the IAIS standard setting activities and support the development and implementation of sound regulatory frameworks. Our ultimate aim is to advance insurance markets globally and reduce the vulnerability of low-income populations against risk.

**The importance of insurance**

In many parts of the world, people and businesses live and operate without the security of insurance. However, when loss strikes, it does not discriminate between the rich and poor. In the event of a shock, past development efforts may be reversed and the near-poor may fall (back) into poverty. Even those in a relatively secure position may find themselves dragged into financial hardship. Insurance protects against unforeseen losses and financial vulnerability. In areas such as agriculture, innovative insurance products can provide solutions to deal with the impact of climate change and catastrophic events. In this way, insurance can also reduce the likelihood of food and economic crises.

**The power of insurance regulation**

Too often, insurance providers may not see a compelling business opportunity to offer products to the low-income population, and individuals or companies do not fully understand the benefits.

"A robust supervisory framework creates incentives for industry involvement and helps build consumer confidence through effective policyholder protection, particularly for low-income households."

Peter Braumüller, Chair of the Governing Council A2ii

Supervisors play a vital role in overcoming these barriers and in encouraging private and public stakeholders to work together to enhance access to insurance for all. However, this requires specific skills that many supervisory authorities in developing countries lack.

**Our solutions**

The Access to Insurance Initiative (A2ii) is a unique global partnership with the mission to inspire and support supervisors to promote inclusive and responsible insurance, thereby reducing vulnerability.

“We strengthen the capacity of supervisors seeking to advance inclusive insurance markets, particularly for low-income clients, by promoting sound, effective and proportionate regulation and supervision based on globally accepted insurance standards.”

Hannah Grant, Head of Secretariat, A2ii

The core fields covered by the A2ii are knowledge generation and dissemination, dialogue and learning, inputs for the development of global standards and guidance, support for country implementation processes in the area of regulatory and supervisory reform, support for regional implementation and capacity development of insurance supervisors.

“How A2ii works: partnerships”

We are the key implementation partner of the global standard setting body for insurance supervision, the International Association of Insurance Supervisors (IAIS), on access to insurance. The IAIS determines the necessary standards and structures for a strong industry. We listen to and work closely with insurance supervisors and provide guidance on how to implement those standards. A2ii’s close relationship with insurance supervisors and the IAIS enables us to better identify areas where support is needed and to feed what we learn on the ground back into the IAIS’s standard setting process. The A2ii works closely with its development partners leveraging off our comparative strengths.
Our capacity building highlights

Capacity Building Strategy: from awareness raising to behavioural change

Knowledge → Skills → Behaviour

The second Inclusive Insurance Innovation Lab (iii-lab)

- 60 participants
- 4 countries
- 13 lab meetings
- Argentina, India, Morocco, Rwanda

Inclusive Insurance Training Programme

- 58 participants
- 26 jurisdictions
- 2 regional trainings for Asia and the Caribbean

For 2020 on average 97% of insurance supervisors believe that the A2ii events and technical materials help them to design regulations and supervisory systems that foster access to insurance.

99% of stakeholders believe the A2ii fulfils its mission.

Our achievements:

- We contributed to 8 supervisory papers of the IAIS, which provide supervisors with guidance on how to implement an inclusive regulatory and supervisory approaches.
- We conducted 20 country assessments, from Colombia to Ethiopia to the Philippines, which have set in motion regulatory changes in at least 15 countries.
- We have worked with local and global partners, insurance organisations and agencies to build the capacity of insurance supervisors and regulators. Today, there are 28 countries with inclusive regulatory framework, with 21 countries in the process of developing their frameworks, as compared to only 6 in 2009.
- As affiliated members of the Global Partnership for Financial Inclusion we have contributed to the work of the G20 on financial inclusion and raised the awareness of the need for insurance to be included in national financial strategies.
- As of 2014, we have been facilitating 6 consultation calls per year, followed up by reports in each language which are subsequently published on our website. Rebranded to A2ii-IAIS Dialogues, in 2020 we held 12 thematic webinars for insurance supervisors and other stakeholders in English, French and Spanish.

In 2020:

A2ii (co-)organised 22 events

- 1840 participants
- 131 countries represented

We conducted 15 A2ii-IAIS Dialogues including Covid-19 and the Pandemic Risk series

- 752 supervisors
- 117 countries represented
